

LABOR SERVICES DIVISION[875]

Adopted and Filed

Pursuant to the authority of Iowa Code section 89A.3, the Elevator Safety Board hereby amends Chapter 71, "Administration of the Conveyance Safety Program," Iowa Administrative Code.

The American Society of Mechanical Engineers standard pertaining to elevator inspector qualifications will end effective January 1, 2014. Currently, Iowa relies on that standard to determine if an applicant is qualified to be an elevator inspector. To stay current, Iowa must update a related definition.

The purposes of this amendment are to make the rule current, protect the health and safety of the public and implement legislative intent.

Notice of Intended Action was published in the August 21, 2013, Iowa Administrative Bulletin as **ARC 0951C**. No public comment was received on the proposed amendment. This amendment is identical to the amendment published under Notice of Intended Action.

No variance procedures are included in this rule. Applicable variance procedures are set forth in 875—Chapter 66.

After analysis and review of this rule making, no impact on jobs will occur.

This amendment is intended to implement Iowa Code chapter 89A.

This amendment shall become effective on December 4, 2013.

The following amendment is adopted.

Amend rule **875—71.1(89A)**, definition of "CEI," as follows:

"CEI" means a person who is a certified elevator inspector or a certified elevator inspector supervisor pursuant to ASME QEI-1-2007 and who received the certification from a certifying organization that holds a valid document of accreditation issued by an accreditation body in accordance with ANSI/ISO/IEC 17024.
